Summary

Full Stack Developer with a background in accounting, and a seeker of knowledge. Astute at leading the charge and resolving problems. Known for being one of the most knowledgeable people on our team. Solving problems is one of the most satisfying parts of my work.

Technical Skills

Languages: HTML5, CSS3, & JavaScript, Bootstrap

Applications: Node JS, MySQL2, Handlebars.js, Express, MongoDB, React, Oracle Payables, & C-Series (Bottomline).

Projects

Flight plan | GitHub: <https://github.com/tonyslonaker/flightplan>

| Site: <https://tonyslonaker.github.io/flightplan/>

- First Group Project – Site meant to assist user in finding the cheapest flight to their destination along with the full cost of hotel arrangements for the length of the trip
- Helped set up the third-party API's and JavaScript for the site.
- Used Technology – HTML, CSS, BULMA, JavaScript and Moment.js

Full Stack Marketplace | GitHub: <https://github.com/austinxewell/Full-Stack-Marketplace> |

Site: <https://mysterious-garden-73946.herokuapp.com/>

- Second Group Project – Site meant to allow users to buy and sale electronic items over the web including full details and pictures with a robust database
- Created the server, API's, express sessions connection, added middleware, created models for database tables and their associations, created the necessary fetch calls, and routes.
- Used Technology – Node.js, JavaScript, Numerous NPM packages including (bcrypt.js, connect-session, dot-env, express, express-file-upload, express-handlebars, express-session, mysql2, path, regex, & Jest for testing)

Tech Blog | GitHub: <https://github.com/jyoung0613/tech-blog> |

Site: <https://sleepy-basin-21214.herokuapp.com/>

- Recent challenge project – Blog site setup to allow tech enthusiasts to blog about all their favorite and upcoming tech.
- Created the entire stack
- Used Node.js, and numerous NPM packages (bcrypt.js, connect-session, dot-env, express, express-handlebars, express-session, mysql2, path, regex, & Jest for testing.)

Experience

Operations Manager

2007 – Present

Conduent/Xerox**Sandy, UT**

Operations Manager for an Accounts Payables department. Took care of all daily operations including making sure all tasks were completed daily for our four segregations in Oracle (Bank Maintenance, Vendor Maintenance, Invoice Manager, & Payment Manager).

Key Accomplishments:

- Became a subject matter expert on all Oracle responsibilities.
- Helped to maintain our Standard Level of Agreement with our contracted business for 17 years with no penalties paid due to missing our SLA's.
- Helped to obtain four contract renewals with our client thus keeping our client for over 17 years.

Operations Team Lead**2006 – 2007****ACS****Sandy, UT**

Handled daily reports from agents, assisted all agents with problem resolution issues, handled payrolls for all agents, kept track of and managed phone states, & assisted in hiring and terminating agents.

Key Accomplishments:

- Helped to find and prevent fraud within the company.
- Recommended by company legal team to be Operations Manager

Education**Bootcamp Certificate:** University of Utah, Salt Lake City, UT

July 2021 – January 2022

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, JavaScript, jQuery, Bootstrap, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.
